## GULF NO-RUST<sup>®</sup> WB

**Gulf No-Rust<sup>®</sup> WB** is a solvent-cutback, corrosion preventive compound which forms a thin and easily removable soft film after evaporation of solvent. **Gulf No-Rust<sup>®</sup> WB** is engineered and designed to protect both ferrous and non-ferrous parts for long term indoor protection and during shipment. **Gulf No-Rust<sup>®</sup> WB** also offers exceptional undercover protection of exterior and interior surfaces of machinery instruments, bearings, etc. Its soft film cold application can be sprayed, brushed or dipped on.

### FEATURES AND BENEFITS:

- Protects ferrous and non-ferrous parts
- Long term indoor and covered outdoor protection
- Compatible with a variety of oils and greases
- Easily removable soft film
- Cold application
- Can be sprayed, brushed or dipped on

### Typical Properties

Product Code	335375
Type of film	Soft Waxy
Color	Dark Red
Specific Gravity	0.8520
Density, lbs/gal	7.10
Flash Point, °F	177

\*Surfaces should be clean, dry and free of oil, grease, dirt and rust prior to application.
