

Introducing...

GulfTEC[®] Full Synthetic dexos1[™] Gen 2 Motor Oil

GulfTEC[®] Full Synthetic dexos1[™] Gen 2 Motor Oil has been uniquely formulated to complement the exacting requirements of GM's advanced engine technology. The result is a high performance oil providing:

- *Significant wear protection*
- *Better oxidation properties*
- *Improved piston cleanliness*
- *Reduction in volatility and oil consumption*
- *Protects against turbocharger deposits*
- *Enhanced aeration control for improved fuel efficiency*
- *Prevention of Low Speed Pre-Ignition (LSPI)* commonly found in direct injection engines*

GulfTEC[®] Full Synthetic dexos1[™] Gen 2 Motor Oil exceeds API SN / ILSAC GF-5 requirements for new cars under warranty. Highly recommended for use in gasoline-fueled and flex-fuel passenger cars, light trucks and sport utility vehicles. Fully backward-compatible making it an excellent choice for previous model year GM vehicles.

| Product Name | License & OEM Certified | Product ID# | API License |
|--------------------------------------------------------------------------|-------------------------|---------------|------------------|
| GulfTEC[®] Full Synthetic dexos1[™] Gen 2 0W-20 | YES | 330226 | SN / GF-5 |
| GulfTEC[®] Full Synthetic dexos1[™] Gen 2 5W-30 | YES | 330228 | SN / GF-5 |

DETAILS

- Available now in bulk, totes, drums and pails at Niagara Falls, NY
- Contact Customer Service for other source point availability
- Tentative ProPak availability is Mid-September
- 12/1 quart will be available when current dexos1[®] inventories are depleted

* **Low Speed Pre-Ignition (LSPI)** - most commonly occurs in smaller displacement engines developed to meet higher fuel economy standards. It is random *premature ignition* which often occurs under low-speed, high-torque conditions in turbocharged gasoline direct-injected (TGDI) engines and can be more destructive than typical engine knock.
