

# Introducing...

## API SN PLUS 2018

*Gulfpride® Syn. Blend Renamed / Boosted Performance*

**Effective May 1, 2018 New API Service Category, SN Plus.**

*Nu-Tier Brands will be utilizing this new, advance **SN Plus** chemistry in our passenger car engine oils.*

*API specification (SN Plus) provides increased protection for small displacement, gasoline direct inject (**GDI**) and turbocharged gasoline direct inject (**TGDI**) engines and will help reduce low-speed pre-ignition (**LSPI**)<sup>1</sup> often occurring in these small high performance engines.*

*This latest API oil specification is backwards compatible and may be used in previous model year vehicles calling for SN, SM and SL.*

**INTRODUCING: Gulfpride® Premium Motor Oil** – New Synthetic Blend **SN Plus** performance formulated to reduce the occurrence of **LSPI** while providing excellent engine protection for both conventional and turbocharged passenger cars and light duty trucks.

Product ID	Old Product Name	New Product Name
330132	Gulfpride Advanced Fuel Efficient Synthetic Blend Motor Oil 5W-20	Gulfpride Premium Motor Oil 5W-20
330133	Gulfpride Advanced Fuel Efficient Synthetic Blend Motor Oil 5W-30	Gulfpride Premium Motor Oil 5W-30
330136	Gulfpride Advanced Fuel Efficient Synthetic Blend Motor Oil 10W-30	Gulfpride Premium Motor Oil 10W-30

<sup>1</sup> **LSPI is a premature ignition of the air-fuel mixture in the combustion chamber. This low-speed pre-ignition is very violent and causes over pressurization of the combustion chamber that can lead to damage and failure of the piston, rings, valves, and other internal components.**
