

Introducing...

TRANSCREST® TRACTOR HYDRAULIC FLUID

Nu-Tier Brands is pleased to announce **Gulf "Universal" Tractor Fluid** will have a new name, **TRANSCREST® Tractor Hydraulic Fluid**. The same great performance and dependability you have come to expect from Gulf, just a new name to help set apart this high quality tractor hydraulic fluid from the **"yellow bucket" 303 type fluids*** that are continually showing up in the market place.

TRANSCREST® Tractor Hydraulic Fluid (THF) is a premium, multifunctional fluid uniquely formulated to meet the performance demands required for newer high powered farm tractors and in many off-highway industries including; agriculture, mining and construction equipment that require one lubricant for the transmission, final drive, wet brakes and hydraulic system.

Performance Benefits:

TRANSCREST® THF is recommended for use and meets many current OEM specifications for agricultural and commercial tractors, and most off-highway equipment requiring: **John Deere J20C, Ford New Holland M2C134D, J.I. Case MS 1204-07/09, Kubota UDT** and many other OEM high performance specifications.

- The combination of select base oils and an advanced additive package are designed to reduce maintenance costs, promote longer equipment life, reduce downtime and support higher production output.

Former Name	New Name	Material Code	Availability
Universal Tractor Fluid	TRANSCREST® Tractor Hydraulic Fluid	331953	Now available

* Despite the fact that John Deere dropped its 303 specification in the early 1970s, *three states (Missouri, Georgia, and most recently North Carolina) have issued stop-sale orders for tractor hydraulic fluid labeled, claiming or implied as meeting JD THF 303 specification. JD 303 type fluid is still being marketed and promoted at many locations at highly discounted prices. Consumers may think they are saving money; however, in the long run those superficial savings can quickly be negated by lower productivity, reduced cold weather performance, increased brake chatter, and costly repair bills.*

For more information on **TRANSCREST® Tractor Hydraulic Fluid** contact your Gulf Territory Sales Manager. Please visit www.gulflubricants.net for a detailed Product Information Sheets and SDS.

To place your orders, or for more information, please call **800-566-4853**
