## Transcrest® ATF, Type F

### Legacy Ford Automatic Transmission Fluid

Red-dyed, premium quality automatic transmission fluid engineered for use in Ford passenger car and light duty truck transmissions built prior to 1977 as well as certain 1977 through 1980 models. It is formulated from select high quality base stocks and a premium additive system which exhibits exceptional high frictional properties, as well as offering superior anti-foaming and anti-wear protection. Gulf TRANSCREST® ATF, Type F meets requirements of obsolete Ford Specification **M2C33-F, Type F**.

### Features and Benefits

- Exceptional frictional properties
- Protects against rust and corrosion
- Promotes smooth transmission operation
- High level of oxidation resistance
- Excellent Low temperature performance
- Superior deposit control

### Applications

- Most automatic transmissions in Ford, Mercury and Lincoln passenger cars and light duty trucks manufactured by Ford Motor Company and certain other makes prior to 1977, and some makes from 1977 to 1981 where Type F Fluid is specified
- Ford power steering systems requiring Ford Specification M2C33F is required. Type F ATF is often used when the OEM wants a non-friction modified fluid
- Various anti-wear hydraulic applications

### Typical Properties

Product Code	Test Method	332045
Kinematic Viscosity, cSt @ 40°C	ASTM D-445	42.3
Kinematic Viscosity, cSt @ 100°C	ASTM D-445	7.6
Viscosity Index (calculated)	ASTM D-2270	149
Brookfield Viscosity, cP @ -40°C	ASTM D-2893	44,000
Flash Point, °F	ASTM D-92	398
Pour Point, °F	ASTM D-97	-42
Color, Visual	ASTM D-1500	Red

Note: Typical values shown are representative of current production and may vary within modest range.
