Product Data Sheet

PureDEF

Diesel Exhaust Fluid

Premium Diesel Exhaust Fluid (DEF) formulated with 32.5% purified urea and 67.5% ultra-pure deionized water. It is engineered for use in modern diesel engines with Selective Catalytic Reduction (SCR) technology to significantly reduce nitrogen oxide (NOx) content in diesel engine exhaust streams. **Gulf PureDEF** is API Certified and meets the stringent quality requirements outlined in **ISO 22241-2** specification.

Consumption:

DEF is directly related to fuel consumption and will typically be used at approximately 2% - 3% of the fuel consumed. As an example, a truck averaging 6 MPG can expect to go approximately 300 miles on one gallon of DEF.

Storage and Handling:

Non-hazardous, non-toxic, non-flammable and readily biodegradable. Avoid freezing, DEF will begin to crystallize and freeze at 12°F. Ideal storage temperature is between 20°F and 85°F for shelf life of up to two years. The freezing and thawing of DEF will not cause degradation of the product.

Packaging:

Available in a variety of sizes: 2.5-gallon bottles, 55-gallon drums, 275-gallon and 330-gallon totes, and Bulk.
